12,005 beneficiaries / 600 iftar meals

Udhiya/Qurbani

38,175 beneficiaries

Eid Gifts

1,400 beneficiaries

HHRD for Palestinian Refugees

HHRD works globally, focusing on countries where most of the population lives below the poverty line. HHRD continues to provide educational support for orphaned children through our Orphan Sponsorship Program. HHRD donated winter relief packages with nonperishable food, clothing, and medical supplies to Palestinian refugees in Lebanon and Jordan. We provide micro-homes in remote settlements and refugee camps. Like modular homes or trailers in the US, these homes feature a kitchen and living quarters. They provide shelter and dignity for displaced persons. Through the Youth Empowerment Program, the Youth for Jordan project, provides college students from the United States valuable experience with humanitarian internships and field trips abroad.

HHRD Status

HHRD has worked inside Palestine until 2015 and now assists Palestinian refugees in Jordan and Lebanon through the Registered International NGO Office in Jordan. HHRD has regular programs for the Palestinian refugees in Jordan and Lebanon such as Orphan Sponsorship, In-Kind Gifts, Education Support, Skills Development & Livelihood, Seasonal Relief, Shelter Assistance, and Clean Water Project. In addition, HHRD launched its Emergency Palestine Relief Fund to provide medical assistance, food supplies, and hygiene kits through the HHRD Middle East North Africa (MENA) office in Jordan.

Country Context

Located on the eastern coast of the Mediterranean, Palestine is currently divided into two territories: Gaza and the West Bank. Featured heavily in the holy texts of all three monotheistic religions, Palestine historically included all land now occupied by Israel. Palestine is not recognized as a sovereign country, and its people currently live under Israeli occupation. In 1948, hundreds of thousands of Palestinians fled violence in their homeland. Today, more than seven million Palestinian refugees are scattered around the world. Denied the right of return, these individuals are forced to remain abroad as more and more Palestinian territory is consumed by the state of Israel.

Because this refugee crisis began more than seventy years ago, some of the camps in Jordan have become well-established urban areas. Many Palestinians are citizens of Jordan, yet overcrowding, poverty, and poor construction make life difficult. Established camps lack open spaces for children to play and learn. Many students lack internet access, devices, and adequate digital literacy. The COVID-19 pandemic has only worsened the situation, forcing humanitarian agencies to respond to a public health crisis amidst the most severe financial crisis in occupied Palestinian territory's history.
